- CSS3
- Bootstrap
- Sass
- Tailwind CSS
- JQuery
- JavaScript
- TypeScript
- MongoDB
- Express.js
- React.js
- Node.js
- MySQL
- Redux
- Java (Basics)
- Gsap (Basics)

### EDUCATION

#### ❖ Bachelor of Computer Applications (BCA)

Tecnia Institute of Advanced Studies, Delhi

Currently Pursuing, 6th Semester, Expected Completion: Jan 2025

### PROJECTS

#### ❖ TODO App

*Technologies: HTML, CSS, JavaScript, Axios, React.js, MongoDB, Express.js, Node.js, Formik, Yup, React Cookies*

- Created a full-stack TODO app for adding, editing, deleting, and updating appointments.
- Implemented user authentication with sign-in, registration, and sign-out features.
- Used React for the front-end and Node.js/Express.js for the back-end.
- Integrated MongoDB for data storage and Axios for API calls.
- Applied Formik and Yup for form validation, and React Cookies for session management.

#### ❖ Restify (Ongoing)

*Technologies: HTML, CSS, JavaScript, Bootstrap, EJS, Mongoose, Express.js, Mapbox, Node.js, Rest Api, MVC architecture*

- Platform inspired by Airbnb for listing hotels and restaurants.
- Admins manage listings; users can view details, send feedback, explore locations.
- Features include login, signup, authentication, and client/server-side validations.

### ACHIEVEMENTS

- Participated in the **ATC** camp as part of **NCC**, gaining leadership and team-building experience.
- Awarded for academic excellence during school, recognized as a top performer.
- Earned certificates in cultural activities, specifically in art, showcasing creativity and artistic skills.
